Disruptive Classroom Technologies

A Framework for Innovation in Education

Sonny Magana

Timely and powerful, this book offers a new framework to elevate instructional practices with technology and maximize student learning. The T3 Framework helps teachers categorize students' learning as translational, transformational, or transcendent, sorting through the low-impact applications to reach high-impact usage of technologies. Teachers and leaders will find:

- Examples of technology use at the translational, transformational, and transcendent levels
- Activities, guides, and prompts for deeper learning that move technology use to higher levels of the T3 Framework
- Evaluative rubrics to self-assess current technology use, establish meaningful goals, and track progress towards those goals
