

# A Revolutionary Strategy for Teaching Writing to Children

“Let’s just face the facts - our kiddos come to us not knowing how to hold a pencil, and are expected to leave knowing how to write a story with a beginning, middle, and end. I had such a hard time understanding how to get from point A to point B... until I was introduced to these amazing nursery rhyme prompts and writing structures. It changed everything!”

## Text Structures From Nursery Rhymes

Teaching Reading and Writing to Young Children

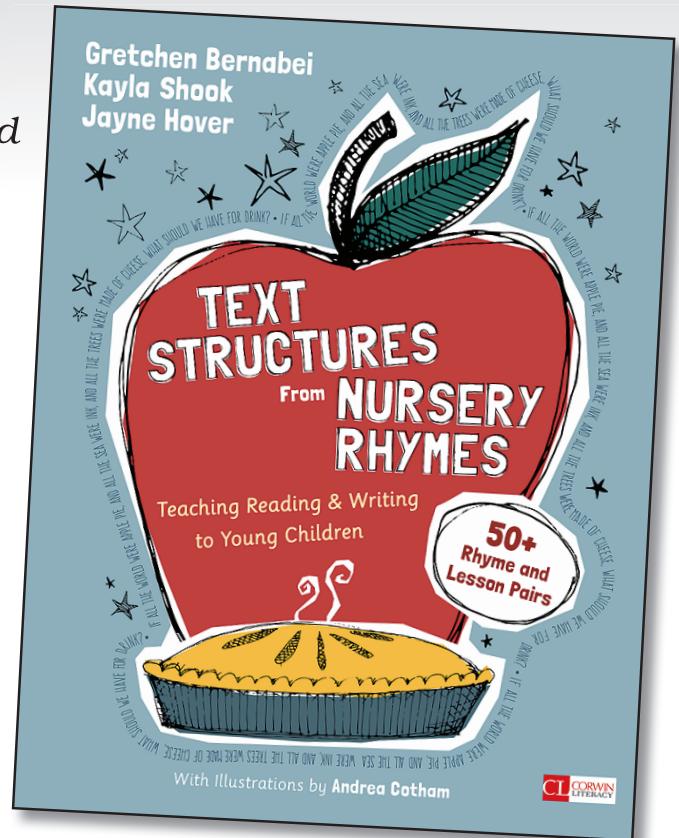

Gretchen Bernabei, Kayla Shook, Jayne Hover

How can we shape young students, often just learning how to hold a pencil, into capable writers? This groundbreaking book offers the solution: a clear framework for guiding children to write in any style, from narrative to persuasive.

The key lies in using familiar text structures to break down a story into its main components, immediately thrusting students into the role of the writer. Included are 53 lessons, each centered around a classic nursery rhyme, and all the tools you’ll need to lead your students in crafting their own story — in words, pictures, or both.

Discover how text structures, already a success in later grades, can also have a profound impact on younger students’ progress.
