- Write instructional actions and opportunities that will help students excel in this area. If they are already excelling, identify the ways to repeat this success with other students in other classrooms. If the generalization reflects a challenge, brainstorm solutions. Write all possible actions and opportunities the team brainstorms here:
- Identify idea(s) to incorporate into the next team-planned lesson. Write a star next to these prioritized idea(s), and then use these notes as a reminder when planning the next lesson together.
