

More Work With Warrants

DIRECTIONS: Each of the arguments below has a *claim* and some *data* but no *warrant*. Add a warrant to each one.

Argument A: Kareem Abdul-Jabbar is the greatest basketball player of all time. He scored 38,387 points throughout his career, more than any other player in NBA history.

Argument B: Pat Tillman is a true hero. After the terrorist attacks on September 11, 2001, he gave up his career in the NFL and joined the Army.

Argument C: It was a terrible decision to buy an Android phone instead of an iPhone. I've had the Android for a week now, and I still can't figure out how to use it.

Argument D: My sister is the smartest person I know. It's now her senior year in high school, and she has never received a grade lower than an A- in any of her classes.

Argument E: The United States Supreme Court should ban the death penalty. Since 1989, 337 people on death row have been exonerated due to DNA evidence.
