Practice Piece: Compound Word Flip-Book

Directions: Cut the flip-book out along the dotted lines. Then fold along the solid line in the center of the flip-book.

The form consists of a large rectangular area defined by dotted lines. A solid horizontal line runs across the middle of this area. A vertical dotted line runs down the center of the top half of the area, creating two equal-sized empty boxes. The bottom half of the area is a single large empty box.
