

Ways to Promote the Reading, Word Study, and Writing Practices Students Need

In second grade, students transition from learning basic foundational skills to applying those skills to engage in complex, authentic reading and writing. This is the most rewarding part of teaching second grade! In order to scaffold your students as they make this leap, you need a well-rounded daily English language arts block. *Puzzle Piece Phonics* is one component of that English language arts block. However, as Wiley Blevins said in his 2016 International Literacy Association presentation, “It takes four to six weeks to master any phonics skill, and the mastery won’t happen unless students apply the phonics skills in their own reading and writing each day.” Therefore, authentic reading and writing in which students have the opportunity to apply learning from word study are essential components of English language arts instruction as well.

ENGLISH LANGUAGE ARTS

READING	WORD STUDY	WRITING
<ul style="list-style-type: none"> • Read-aloud • Shared reading • Guided reading • Independent reading • Fluency practice 	<ul style="list-style-type: none"> • Phonemic awareness • Direct instruction decoding and encoding words • Word sorting • Practice writing words • Reading words in connected text <ul style="list-style-type: none"> • Fluency practice • Posters/anchor charts • Language and grammar practice 	<ul style="list-style-type: none"> • Journaling • Shared writing • Independent writing • Writing conferences • Student sharing

Puzzle Piece Phonics gives you all of the resources you need to implement the word study component of the English language arts block. In second grade, students need sufficient time engaged in grade-level-appropriate word study to transition from developmental to intermediate readers and writers. As Wiley Blevins explains in *A Fresh Look at Phonics* (Corwin, 2017), “the stories that students read [in second grade] are filled with more challenging, multi-syllabic words ... As a result, more emphasis needs to be given to transitioning to longer words at this grade level” (p. 247). *Puzzle Piece Phonics* helps you scaffold students as they transition each week from studying single-syllable words to multisyllabic words and as they progress throughout the program from studying sound–spelling patterns to analyzing root words and affixes, parts of speech, and categories of words. Your word study block will give students the foundational skills they need to become readers and writers. However, students also need sufficient time to apply those skills in a variety of settings to reach long-lasting mastery.

(Continued)

Setting up the English language arts block depends on your teaching style and the constraints of your schedule. We suggest scheduling a 150- to 180-minute block of time for the following:

ELA COMPONENT	TOTAL TIME	SUGGESTED PRACTICES
Word Study	60 minutes total (30 minutes whole-group instruction; 30 minutes independent practice)	<p><i>Puzzle Piece Phonics</i> Daily Lessons Whole Group</p> <ul style="list-style-type: none"> • Phonemic Awareness (2 minutes) • Introduce and Review Phonics Concepts (1–3 minutes) <ul style="list-style-type: none"> • Start Your Schema and Build Your Schema • Direct Instruction Decoding and Encoding Words (20 minutes) <ul style="list-style-type: none"> • Blending • Say, Spell, Sort and Word Ladders • Sorting (5–10 minutes) <p>Small-Group or Independent Practice During Centers</p> <ul style="list-style-type: none"> • Practice writing words (15 minutes) <ul style="list-style-type: none"> • These are the <i>Puzzle Piece Phonics</i> Practice Pieces. • Reading words in connected text (15 minutes) <ul style="list-style-type: none"> • These are the Reader’s Theater scripts and informational texts. <p><i>Note: Set up your schedule in a way that works for your class. You will need 30 minutes of direct instruction, but you can be flexible in how students complete independent practice activities. Some years we have had students complete Practice Pieces and fluency during centers or while pulling reading groups. Other years, we have found a 15-minute block for fluency practice that was separate from direct instruction. Feel free to fit the components in as you can and change your schedule until you find what works for you.</i></p>
Reading	60 minutes total (30 minutes whole-group instruction; 30 minutes guided and independent practice)	<p>Whole Group (30 minutes)</p> <ul style="list-style-type: none"> • Read-Aloud • Mini-Lesson/Shared Reading <p>Small-Group or Independent Practice During Centers (30 minutes)</p> <ul style="list-style-type: none"> • Guided Reading • Independent Reading
Writing	30 minutes total (10 minutes whole-group instruction; 20 minutes guided and independent practice)	<p>Whole Group (10 minutes)</p> <ul style="list-style-type: none"> • Mini-Lesson • Shared Writing <p>Writer’s Workshop (20 minutes)</p> <ul style="list-style-type: none"> • Independent Practice • Writing Conferences • Student Sharing

Reading Practices Students Need

Students need the following practices to apply the skills they have learned in *Puzzle Piece Phonics*:

READ-ALLOUD

- The teacher selects a text that is several levels above students' independent reading level.
 - The teacher reads the text aloud, modeling fluency and thinking aloud about the text.
 - Students listen to the text and possibly discuss the content to show comprehension.
-

SHARED/SUPPORTED READING

- The teacher selects a text that is slightly above students' independent reading level.
 - The teacher makes the text accessible to all students by either displaying an enlarged version of the text or providing all students with a copy of it.
 - The teacher introduces the text, building background and previewing key content.
 - The students and teacher work together to read the text and apply key skills.
-

GUIDED READING

- The teacher gathers small groups of students who are similar in their reading ability.
 - The teacher selects a text that is at the instructional level of the students in the small group.
 - The teacher provides all students with a copy of the text.
 - The teacher introduces the text, building background and previewing key content.
 - Students independently read the text while the teacher listens to the individual students and supports them as needed.
 - The students and teacher respond to the text to demonstrate comprehension.
-

INDEPENDENT READING

- Students self-select texts that match their interest and/or independent reading level.
 - The teacher holds reading conferences with individual students.
-

FLUENCY PRACTICE

- The teacher selects a grade-level-appropriate text that highlights key features of reading (a sound–spelling pattern, a sentence structure, etc.).
 - The teacher models fluent reading of the text.
 - Students repeatedly read the text over a period of time, tracking improvements in fluency (rate, accuracy, and expression).
-

Word Study Practices Students Need

Students need the following practices to develop foundation skills:

PHONEMIC AWARENESS

- Students practice hearing and manipulating sounds in spoken words.
- See the *Puzzle Piece Phonics* Teacher’s Guide Introduction (page I-17) for more information.

DIRECT INSTRUCTION DECODING AND ENCODING WORDS

- **Blending**
 - Students look at a word, say the sounds of each spelling pattern within the word, and put them back together to decode the word.
 - See the *Puzzle Piece Phonics* Teacher’s Guide Introduction (page I-18) for more information.
- **Say, Spell, Sort/Word Ladders**
 - Students hear sounds and chunks in words, reference the puzzle pieces, recall how each sound–spelling pattern or word study concept is typically applied, and write the letters that represent the sounds they hear.
 - See the *Puzzle Piece Phonics* Teacher’s Guide Introduction (pages I-22 and I-24) for more information.

SORTING WORDS

- Students tap out sounds in words, identify focus spelling patterns within words, and connect example words to the puzzle piece headers.
- See the *Puzzle Piece Phonics* Teacher’s Guide Introduction (page I-28) for more information.

PRACTICE WRITING WORDS

- Students read and write weekly words and apply focus spelling patterns to new contexts.
- See the *Puzzle Piece Phonics* Teacher’s Guide Introduction (page I-30) for more information about the purpose of Practice Pieces.
- See the *Puzzle Piece Phonics* Teacher’s Guide Introduction (pages I-35–I-61) for more information about specific Practice Pieces.

READING WORDS IN CONTEXT OF CONNECTED TEXT

- Students apply their knowledge of sounds and spellings to decode unfamiliar words within new texts.
- See the *Puzzle Piece Phonics* Teacher’s Guide Introduction (pages I-32 and I-33) for more information.

CLASSROOM REFERENCE POSTERS AND ANCHOR CHARTS (THE PUZZLE PIECES)

- Students connect to visual representations of the sounds and spellings they are learning and refer to them when reading and writing throughout the instructional day.
 - See the *Puzzle Piece Phonics* Teacher’s Guide Introduction (page I-11) for more information.
-

Writing Practices Students Need

Students need the following practices to apply the skills they have learned in *Puzzle Piece Phonics*:

JOURNALING

- The teacher introduces a prompt.
- Students freely write in response to the prompt.

HOLDING STUDENTS ACCOUNTABLE FOR THE TRANSFER OF SKILLS LEARNED DURING WORD STUDY

- **Word Wall**
 - The teacher systematically introduces high-use words to students (sight words, words commonly used during writing).
 - The teacher displays the words on a word wall.
 - The teacher teaches students how to reference the word wall.
 - Students use the word wall to correctly spell high-use words when writing throughout the day.
- **Independent Phonetic Spelling**
 - The teacher reminds students of the spelling expectations set in class and encourages students to independently spell words phonetically, recalling the specific rules learned for using each sound–spelling pattern.
 - The teacher models how to segment and spell words phonetically.
 - Students apply phonics and reference the puzzle pieces to encode words when writing.

WRITER'S WORKSHOP/ WRITING PROCESS

- The teacher models a writing skill in a mini-lesson.
 - The teacher creates and displays anchor charts for students to reference.
 - The teacher may provide graphic organizers to guide student work.
 - Students write independently for a period of time.
 - The teacher confers with individuals or small groups of students to help students make improvements.
 - Students share their work with partners, small groups, or the class.
