SELF-ASSESSMENT

Before moving forward, consider the success criteria for this module. You will notice these statements have been revised from "We can" statements to "Can I?" questions. Using the traffic light scale, with red being not confident, yellow being somewhat confident, and green indicating very confident, how confident are you in your ability to utilize knowledge of distributed scaffolds? You'll also want to take note of evidence you have for your self-assessment.

SUCCESS CRITERIA	SELF-ASSESSMENT	EVIDENCE
Can I define the meaning and purposes of distributed scaffolds?		
Can I compare just-in-time and just-in-case scaffolds?		
Can I describe the use of questions to check for understanding and to identify needed scaffolding?		
Can I distinguish between types of prompts, cues, and direct explanations and modeling useful in distributed scaffolds?
