

Situation	Type of Prompt
<p>1. A group of students was stuck on a math problem and their teacher prompted them with a reminder to apply PEMDAS (the order of operations) rather than tell them where they had made their mistake.</p>	
<p>2. A student explained that they didn't understand the passage and couldn't write a summary. The teacher asked, "What can you do to help yourself?"</p>	
<p>3.</p>	<p>Background knowledge</p>
