

## March 27

I was in the 3rd grade when I got my first Facebook. Back <sup>(when)</sup> **then**, Facebook was really popular and everyone thought me and my friend were so cool because we were the only ones.

Actually a few weeks ago I looked back to my old Facebook (it took forever) and <sup>(when)</sup> **then** I found all of these super embarrassing pictures and statuses. I was crying from laughter at my dumb posts and all of these “selfies” we took back <sup>(when)</sup> **then**, when we were 10 and 11!

Who even does this stuff at that age? <sup>(when)</sup> **Then** Facebook got old when Instagram came out and it all repeats from there.
