

CHECKLIST: END-OF-UNIT REVIEW WITH LEARNING MAP AND GUIDING QUESTIONS

	
Teacher and students have created a complete learning map by the end of the unit.	
Learning map should be integrated into the end-of-unit review.	
Teacher should prompt students to use the map to study for the end-of-unit test (when there is a test).	
Teacher should prompt students to keep their maps stored in an orderly, easy-to-find place in their notebooks.	
When returning students' tests, the teacher should clearly explain how the map would have helped them prepare for the test.
