

## CHECKLIST: OPEN SPACE

<b>DURING OPEN SPACE:</b>		
Students create a list of topics they want to discuss.		
Each student who proposes a topic agrees to host a discussion.		
Students choose which topic group they want to join for a discussion.		
According to the "Law of Two Feet," students can move to another group if they're not learning in the group they initially chose.		
Students may be asked to create a product (such as a brainstormed list or graphic organizer) and share it with the rest of the class at the end of the lesson.
