

## Setting Norms for Positive Collaboration

Individually

1. What are my **expectations** for this group and how it functions? *(If it is easier, think about things that should NOT happen and then turn them into a positive).*

2. What would be any **accepted excuses** for breaking these norms or not meeting these expectations?

Group Norms

My Role

*"A real team: a small cast of people recruited for their complementary skills, not their meshing personalities, who hold one another accountable, and who have common purpose and a sense of urgency."*

—Marie Gilot (Journalist and Director of CUNY J+ workshops)
