

# Directions

- Print the domino cards on copy paper or cardstock.
- Cut apart the cards on the dotted lines.
- The dark, full lines separate the pips on a domino card.

# Decomposing Numbers Less than 20

- Choose a number between 5 and 20.
- Have students find two or more dominos that have total the target number.
- For 20 a student could select dominos of 3, 7, and 10.
- Have the student prove or explain how they know the dominos show the target.
