## A WINNING STREAK

$649+$ $\qquad$

Materials: 10 -sided die; or digit cards (0-9); or deck of cards with jacks and kings removed (queens $=0$ and aces $=1$ ); two different colored counters

Directions: Take turns. On your turn, roll the die or draw a card. Add that number to 39. Place your marker on one of the spaces with that sum (if you get a 0 , 1 , or 2 , you lose your turn). Three in a row scores 5 points; four in a row scores 10 points; and five in a row scores 20 points. High score wins!
