Tip: Print two registration forms on one page and then cut the page in half. Once registration forms are returned, fill out as many of these as you can before the night of the event by writing the parent's name at the top and checking off the workshop they signed up for. Lay these out in alphabetical order the night of the event—they will serve as your attendance! Have blank ones ready to go for walk-ins.

Extra Tip: Print the registration on the front of the Parent Math Night Feedback Form so parents have what they need in one document and they will hand this paper back at the end of the night.
