

Three-Way Math Conference Roles Editable Handout for Parent-Teacher-Student Conferences

The purpose of this conference is to allow the student to share with their family and teacher the work they have accomplished over the past few weeks as well as areas of strength and improvement. This conference is intended to be friendly, encouraging, and relaxed. To ensure success, our roles are outlined below.

Student, Parent, and Teacher Roles With Conferences		
Student	Parent	Teacher
<ul style="list-style-type: none">♦ Reflects on their mathematics performance and effort, focusing on strengths♦ Shares work samples and why they chose them♦ Tells about self-identified areas of improvement♦ Describes goals they will set for themselves	<ul style="list-style-type: none">♦ Praises the student's effort and identifies strengths in the student's work♦ Asks questions about the shared work samples or content to better understand the mathematics♦ Describes goals they want to see from the student if not mentioned♦ Identifies ways to help the student reach their goals from the home front	<ul style="list-style-type: none">♦ Praises the student's effort and identifies strengths in the student's work♦ Updates the parent and child as to next content topics and expectations♦ Describes goals they want to see from the student if not mentioned
