## This Is Disciplinary Literacy & Disciplinary Literacy in Action

ReLeah Lent, Marsha Voigt

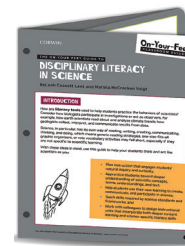

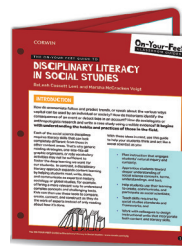

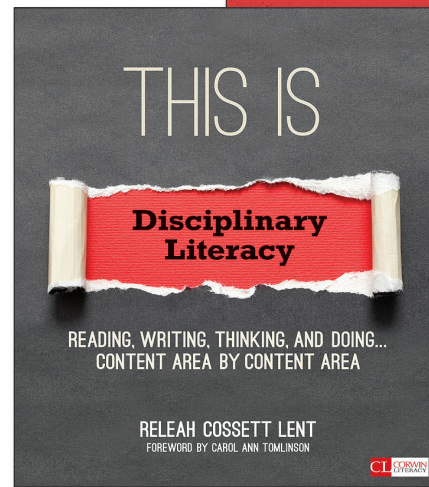

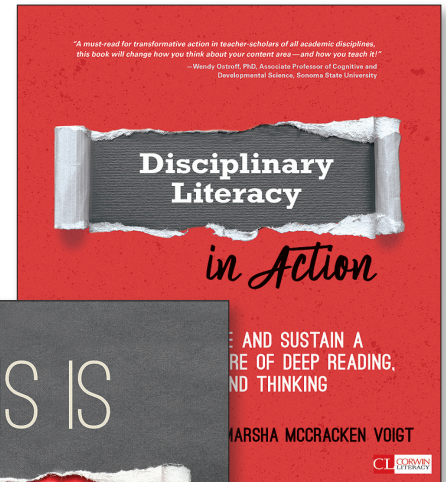

Helps content-area teachers put into action the key literacies of their specialties. Content area by content area, ReLeah shows how to immediately incorporate these literacies into lessons, units, and project-based learning. The authors provide teachers with a framework that keeps their subjects at the center and shows them how to pool strengths with colleagues in ongoing communities of professional learning (PLCs) around content-specific literacy.

Bring the learning to life in your classroom with the *On-Your-Foot Guides (OYFGs) to Disciplinary Literacy in Mathematics, Science, and Social Studies*. The OYFGs help teachers:

- Plan instruction that engages students' natural inquiry and curiosity
- Apprentice students toward deeper understanding of mathematical concepts, terms, symbols, and patterns
- Help students use their new learning to create, communicate, and act as mathematicians
- Teach skills required by mathematical standards and frameworks
- Start working with colleagues to design instructional units that incorporate both mathematics and literacy skills

Each On-Your-Foot Guide is laminated, 8.5"x11" tri-fold (6 pages), and 3-hole punched.
