Literacy Is Still Not Enough

Modern Fluencies for Teaching, Learning, and Assessment

Nicky Mohan, Ian Jukes, Ryan L. Schaaf

While reading, writing, and arithmetic remain important, they are no longer enough. For learners to thrive, they must move beyond traditional literacies to modern fluencies—the unconscious mental processes that are learned, adapted, and applied in the context of real-world problems and challenges.

In this book, the authors unpack the fluencies (solution, information, creativity, communication, collaboration, and global citizenship) to reflect the relentless social, cultural, and economic shifts of modern times. Practical resources are presented alongside

- Authentic Unit Plan Exemplars for each fluency
- Assessment rubric examples
- Discussion questions

Learners today must master an entirely different set of essential skills and knowledge needed to succeed than previous generations. This book provides a practical framework for integrating new fluencies into traditional curriculum.

\$34.95, ISBN: 9781544381268

"This book is for any educational stakeholder who no longer believes, "The way we've always done it" is a good enough basis for an educational decision. Mohan, Jukes, and Schaaf have developed a pedagogical solution by reimagining the six modern fluencies. The only reason I wanted to put the book down was to create fluency units that promote active, engaged, higher-level thinking in today's and tomorrow's learners."
