## The Five Practices in Practice High School

### Successfully Orchestrating Mathematics Discussions in Your High School Classroom

Margaret (Peg) Smith, Michael D. Steele, Miriam Gamoran Sherin

Take a deeper dive into understanding the five practices—anticipating, monitoring, selecting, sequencing, and connecting—for facilitating productive mathematical conversations in your classrooms and learn to apply them with confidence.

This follow-up series to the modern classic, *Five Practices for Orchestrating Productive Mathematics Discussions*, shows the five practices in action in real classrooms and empowers teachers to be prepared for and overcome the challenges common to orchestrating math discussions.

\$32.95, 250 pages, ISBN: 9781544321233

*“The five practices for orchestrating productive mathematical discussions, and these ideas for putting those practices into practice, offer the actions that can develop and sustain the belief that both math and students matter.”*

—From the Foreword by Dan Meyer,  
Chief Academic Officer, Desmos
