

## The Comma Paper

---

Write a paper about anything you feel passionate about. Write about something you love, something you can't stand, something you'd like to see changed, something that needs to be preserved, or anything else that sparks a passion in you. This paper should be at least one page typed or two pages handwritten. It will be graded purely on its use of commas, as outlined below.

### Criteria

---

- Use at least 10 commas.
- All commas should be used correctly.
- The commas should be used in at least four different ways (e.g., combining sentences, lists, introductory clauses, dates, to set apart extra details, appositives, etc.).
