Figure 5.4

Student's Self-Reflection Survey for Collaborative Learning

To what extent did I engage in the discussion or work?	I was unable engage in the discussion or work because . . .	I may have dominated the discussion or tried to take over. Explain.	My contribution to the discussion or work was average for me. Explain.	I was pleased with my contribution to the group because . . .
To what extent was I prepared for today's group work?	I was totally unprepared because . . .	I could have been better prepared in this way:	I was adequately prepared. Explain.	I felt I was very well prepared. Provide an example.
How well did I learn with my group today?	I don't feel I learned much in group work today because . . .	Most of what I learned will not be useful in this class because . . .	I learned at least one important thing today. Explain.	Today's group work was a great learning experience because . . .
When the group ran into a problem or challenge, how well did I contribute to the team effort of solving the problem?	I did not participate in the solution. Explain.	I could have done more to help solve the problem. Explain.	I supported the team by contributing to the solution in this way:	I was instrumental in helping my team solve the problem. Explain.
