

Classroom Inventory – Grades K–2

Teacher: _____

Grade: _____

Classroom: _____

Manipulative	Suggested	Actual
Base-Ten Blocks	Per Student: 1 flat, 12 rods, and 30 units	
Color Tiles	Per Student: 20 Small Group: 100 Whole Class: 500	
Cuisenaire Rods	1 set per student	
Geoboards	1 per student	
Geometric Solids	Per Student: 1 set Small Group: 1 set Whole Class: 1 set per 4 students	
Linking Cubes	Per Student: 20 Small Group: 100 Whole Class: 500	
Pattern Blocks*	Per Student: 1 snack-sized bag Small Group: 1 quart-sized bag Whole Class: 1 quart-sized bag for every 4 students	
Tangrams**	1 set per student	
Two-Color Counters	Per Student: 20 Small Group: 100 Whole Class: 500	

*Note: try to keep the number of pattern blocks proportional by size: for every 1 hexagon, students may need 2 trapezoids, 3 blue rhombi, and 6 triangles. Because squares and tan rhombi are less widely used, the number included in each bag is not as important.

**If students are working in groups, it is helpful for each group member to have a different color.
