## Developing Teaching Expertise

### A Guide to Adaptive Professional Learning Design

Ryan Dunn, John Hattie

Picture a world where teachers, equipped with the expertise to produce the best outcomes in every context, confidently and intentionally inquire, adapt, and change instruction based on student needs. Do you know how to get them there?

*Developing Teaching Expertise* offers a proactive framework for teachers to work through iterative design cycles and understand how to make 'what works best' work in their unique classroom. Aligned to the varied components of teacher professional learning, this book supports the development of teaching expertise by:

- Exploring how specific design and leadership approaches can be integrated to form a useful framework for leading teacher professional learning
- Highlighting ways to navigate through complex educational environments
- Incorporating illustrative tools and vignettes, and real-life examples of results from different educational settings

This book offers a deep exploration to lead and intentionally cultivate a culture of lifelong teacher learning.

\$32.95, ISBN: 9781544368153

*"Dunn and Hattie provide forceful evidence that expertise in teaching requires more than mimicking best practices and complying with externally generated programs. Teachers and school administrators are drowning in well-intentioned advice, but thirsty for ways to focus their limited time and resources on practices that have the greatest impact on their students.... In brief, this book provides the path of professional learning, not compliance."*

—Guy Claxton
