

# Health Cases

## Part 1: Health Cases in Our Community

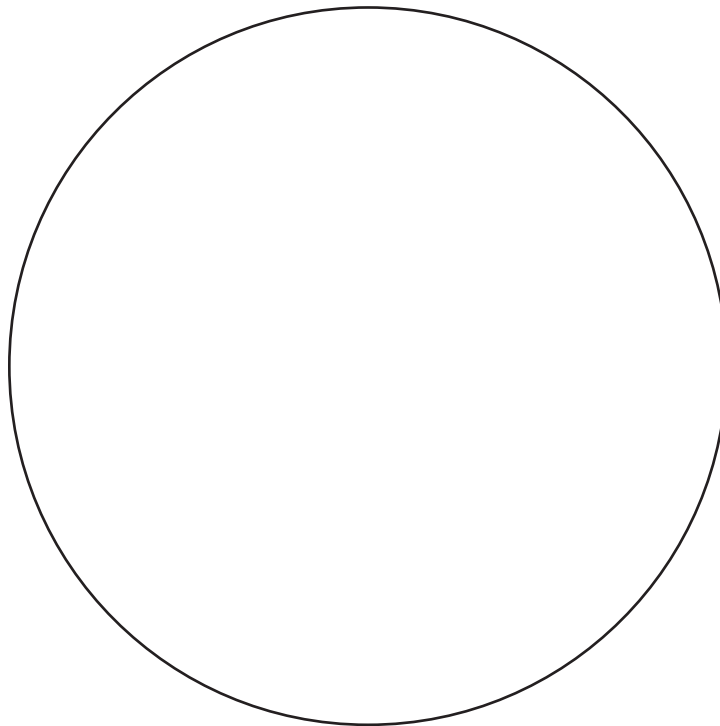

Organize the Data

Table

Name of Case	Number of Cases	Fraction of Overall Cases	Decimal Representation of Fraction	Percent of Overall Cases
Heart Disease				
Coronavirus				
Flu				
Obesity				
Diabetes				
Cancer				

Circle Graph

Title: \_\_\_\_\_

## Part 2: Health Cases in the Other Class

Another class engaged in the same activity, and their results were as follows:

Name of Case	# of Cases	Percent of Overall Cases
Heart Disease	5	
Coronavirus	8	
Flu	4	
Obesity	4	
Diabetes	7	
Cancer	6	

In your groups, answer the following questions:

1. Which class has more coronavirus cases? How do you know?
2. Which class has the fewest obesity cases? How do you know?
3. Which case has an equal amount in both classes? How do you know?
