

The PBL Brainstorming Planning Form is designed to capture your wild and crazy ideas. This is not the place to get married to any particular idea; it is simply a place to organize your thoughts and start to make some connections. If you come up with a big idea but can't connect it to any standard you need to cover, scratch that idea and start with a new line of thinking.

PBL Brainstorming Planning Form

Big ideas

These topics should be related to content areas for your grade level.

Real-world context

How does this relate to an authentic problem that is relevant to your community/students?

Standards and skills

What standards can you see connecting to your idea?

Final product

What can students create/do/share?

Potential real-world connection

Who might you bring in? Where might you take students out?
