

# RESOURCE 1.4 FOR MULTILINGUAL LEARNERS AND THEIR TEACHERS

## My Classroom Portrait

Figure out the answers from Resource 1.3 for the whole class. Older students can determine the average number or just tally and give the total number. Then in small groups, students can make a bar graph of the numbers for each of the questions. Put all the information together to make a classroom portrait and produce a mini report.

1. <b>Our Languages:</b> How many languages do we speak?	Which ones?
2. <b>Our Languages:</b> How many languages do we read and write?	Which ones?
3. <b>Our Countries of Origin/Cultures:</b> Outside the U.S: how many countries do our families come from?	Which ones?
4. <b>Our Siblings:</b> How many brothers and sisters do we have? How many are older than us and how many are younger?	What are their ages?
5. <b>Our Special Interests:</b> What do we like?	Music, sports, art, social media? Anything else?
6. <b>Our Birthday Months:</b> In which month were we born?	How many in each month? January, February, March, April, May, June, July, August, September, October, November, December
7. <b>Our Question for the Class:</b>
