Classroom-Ready Rich Math Tasks, Grades K-1

Engaging Students in Doing Math

Beth McCord Kobett, Francis (Skip) Fennell, Karen S. Karp, Delise Andrews, Latrenda Knighten, Jeff Shih

Do you work tirelessly to make your math lessons meaningful, challenging, accessible, and engaging? Do you spend hours you don't have searching for, adapting, and creating tasks to provide rich experiences for your students that supplement your mathematics curriculum? Help has arrived! These ready-to-implement, engaging tasks connect skills, concepts and practices, while encouraging students to reason, problem-solve, discuss, explore multiple solution pathways, connect multiple representations, and justify their thinking. In other words, these tasks allow students to truly do mathematics! Written with a strengths-based lens and an attentiveness to all students, this guide includes:

- Complete task-based lessons, referencing mathematics standards and practices, vocabulary, and materials
- Downloadable planning tools
- Notes on access and equity, focusing on students' strengths, productive struggle, and distance or alternative learning environments.

With concluding guidance on adapting or creating additional rich tasks for your students, these guides will help you give all of your students the deepest, most enriching and engaging mathematics learning experience possible.
