Deeper Competency-Based Learning

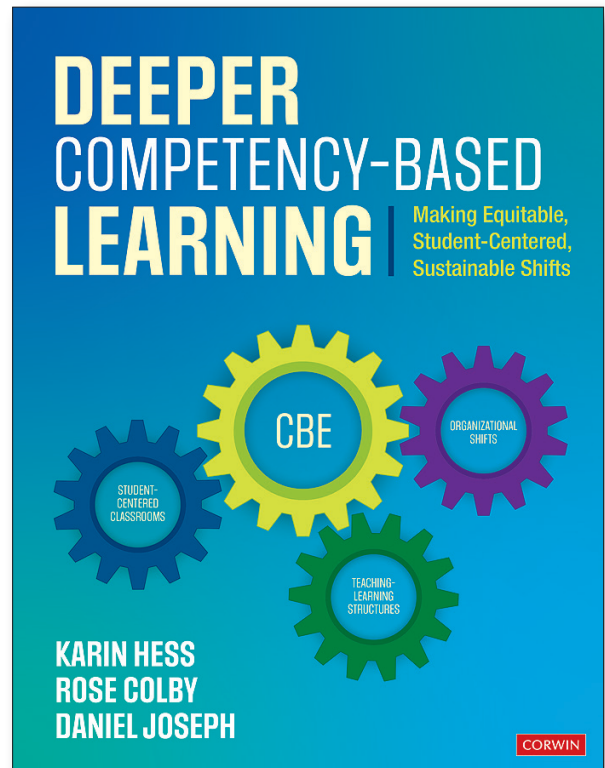

Making Equitable, Student-Centered, Sustainable Shifts

Karin Hess, Rose Colby, Daniel Joseph

The one-size-fits-all instructional and assessment practices of the past no longer equitably meet the needs of all students. Competency-based education (CBE) has emerged not only as an innovation in education, but as a true transformation of the approaches to how we traditionally “do” school.

- Build the foundation for organizational shifts by examining policies, leadership, culture, and professional learning
- Dig in to shifts in teaching and learning structures by addressing rigorous learning goals, competency-based assessment, evidence-based grading, and body of evidence validation
- Take a deep dive into the shift to student-centered classrooms through personalized instructional strategies that change mindsets regarding teacher-student roles, responsibilities, and classroom culture

Discover how your students can demonstrate deeper learning of academic content and develop personal success skills by maximizing time, place, and pace of learning with this roadmap for your CBE journey.

\$38.95, 248 pages, ISBN: 9781544397061

“Finally, a primer on competency-based education that understands that every school is unique in the same way that every student will take personalized pathways as he or she learns! The authors provide a comprehensive guide for districts and schools to use in plotting their journey to competency education.”

—Chris Sturgis, Co-Founder, CompetencyWorks
