The Assessment Playbook for Distance and Blended Learning

Measuring Student Learning in *Any* Setting

Douglas Fisher, Nancy Frey, Vince Bustamante, John Hattie

Rich with a wide range of examples, strategies, and assessments that can be leveraged with rigor and fidelity regardless of learning environment, this practical playbook empowers teachers with the decision-making tools needed to gauge the impact of instructional strategies in today's rapidly evolving educational landscape. It features:

- "Assessment cookies," or insights that endure in any distance or hybrid learning environment and can be used to inform assessment decisions, including the understanding that "everything is searchable."
- A robust "playlist" of distance learning assessment tools—including universal response, teach-back opportunities, composing, taking action, self-assessment, and peer assessment—that teachers can mix and deploy to match every learning intention.

Designed properly, assessments implemented through the lens of distance and hybrid learning can yield significant impact for student achievement, both in the pandemic teaching of today, and in the educational contexts of the future.
