

# Shadowing Multilingual Learners

## Next Steps: Needs Assessment

On a scale of 1 through 5, with 1 being lowest and 5 being highest, which of the following areas do you consider to be the greatest need in your classroom?

### 1. Think-Pair-Share

1                      2                      3                      4                      5

---

### 2. Teacher-Guided Reporting

Use of open-ended questions (requiring more than one-word responses)

1                      2                      3                      4                      5

Asking for linguistic clarification (grammar, specific language, etc.)

1                      2                      3                      4                      5

Encouragement

1                      2                      3                      4                      5

Recasting (restating student responses in academic language)

1 2 3 4 5
