

Name: _____ Date: _____

Four trays of brownies were taken to a picnic. $\frac{3}{4}$ of a tray, $\frac{1}{4}$ of a tray, $\frac{3}{4}$ of a tray, and $\frac{2}{4}$ of a tray were eaten. Were more than half or less than half of the brownies eaten at the picnic?

Use pictures, numbers, or words to explain how you know that more or less than half of the brownies were eaten.
