

Name: _____ Date: _____

A construction company is paving 18 miles of road. It can pave $\frac{3}{4}$ of a mile in a day.

How many days will it take to complete the road?

Use models, numbers, or words to explain your answer.

The company says it will take 3 more days to complete a total of 20 miles. Do you agree or disagree with the company?

Big Idea #43: Problem Solving with Multiplication and Division with Fractions • Task 1 • Task 43B
