Teach to Develop Talent

How to Motivate and Engage Tomorrow's Innovators Today

Jeanne L. Paynter

With the new brain-based Talent-Targeted Teaching and Learning model described in this book, you can focus instead on developing all students' metacognitive, creative problem-solving, and leadership skills alongside the required content standards. Teach to Develop Talent applies the psychology of motivation, engagement, and achievement to practical, culturally responsive strategies educators can use to equitably identify and develop students' cognitive and social-emotional skills, including curiosity, creativity, perseverance, reasoning, persistence, empathy, and more. With this book, you can

- Identify and develop all learners' aptitudes for innovation in STEM and humanities

- Transform any curriculum or standards into long-term aims for talent development

- Challenge and engage all learners, especially diverse gifted students

Ideal for implementation in virtual or traditional learning environments, you will ensure your students' long-range and multi-faceted success with this hands-on guide.

$34.95, 248 pages, ISBN: 9781071812556

"Finally, a book that describes in depth how to teach and assess the essential skills most needed to thrive in the innovation era. This book deserves to be read, re-read, annotated, and dog-eared by every K-12 educator."

—Tony Wagner
Senior Research Fellow and author of "The Global Achivement Gap" and "Creating Innovators"
