YOUR TURN! ✏️

Revisit the previous modules. Where will you and your colleagues get the tools you need (e.g., anchor charts, targeted collections of learners' individual work) to guide the co-construction? What work will need to be done over time in order to have a set of class work samples, relevant previously made anchor charts, or relevant collections of individual work (e.g., student folders/portfolios)?

LEARNING INTENTION	WHAT CHARACTERISTICS MUST THE SAMPLES HAVE?	WILL THIS COME FROM CLASS WORK SAMPLES, PREVIOUSLY MADE ANCHOR CHARTS, OR STUDENT WORK FOLDERS/PORTFOLIOS?
